- **Black Dragon Wash** – Although, some “hard-cores” ride this trail up and back down, it is best done by starting at the top with a shuttle waiting for you at the bottom. YOU WILL NEED TO WORK OUT YOUR OWN SHUTTLE. Really fun down-slope with some technical spots and lots of rugged beauty. It features some of the most interesting Indian rock art on the San Rafael Swell left by ancient Fremont Indians, who inhabited Emery County from about 500 to 1300 AD. The wash is named for a pictograph that resembles a winged dragon. Get to the top of the trail via exit 131 of I-70. The bottom is located just off I-70 at milepost 147. **NO SMALL BIKES ALLOWED on the full trail, but biking/hiking from the bottom to the rock art is accessible for everyone.**
- **GOOD WATER RIM TRAIL** (Intermediate/Advanced) This is MECCA's signature trail. Designed and created by MECCA founder, former Emery County Sheriff LaMar Guymon. It winds around not only the edge of Good Water Canyon but the slot canyons that feed into it – with gorgeous views for 17 miles. Riders of all abilities will enjoy this trail. You can ride out and back or cut off onto the parallel road at any time or ride the entire 17 miles out and back if you have it in you! **THIS TRAIL HUGS THE EDGE FOR MILES – SO NOT RECOMMENDED FOR CHILDREN.**
- **WOODHILL Trail System** (Intermediate/Advanced) Located on the plateaus overlooking the town of Price. Lots of fun single-track trails. The beginning of the trail system is flat and easy for even young kids to tackle. Right on your way home if you live north and west of Green River. **SELF GUIDED.**

Then head home with a wonderfully stiff and sore body and a head full of beautiful memories and happy thoughts!
